

COMMUNITY LIAISON GROUP

UMHCS has a Community Liaison Group which is a group of community members interested in two-way communication between UMHCS and the community. The group meets regularly with the Board and Staff members and provides feedback on current issues. They are also involved in identifying community needs, supporting the community and is actively involved in evaluating service delivery. They are also involved in keeping track of how well we perform in terms of providing the things that the community has asked for. Contact Kerry Flanagan on (02) 60763200 for more information.
